

“In a single year, public utility companies have over-billed their customers \$19 BILLION dollars!”

- US House of Representatives Ways and Means Committee

Energy Independence. More Choice. Less Waste.
Recovering Funds and Reducing Utility Costs

Energy Professionals partners with industry leading attorneys and bill auditing firms to correct inaccuracies in utility billings.

Introduction to Utility Bill Recovery

Today, a single utility bill has over 150 cost components; meaning, there are over 150 ways for errors to exist in your statements. Undetected utility billing errors such as old unadjusted utility-based or state-based taxes, charges for unused services, meter reading errors, incorrect rate classes, and many other reasons have caused countless cases of over-billing.

While businesses and corporations suspicious of inaccuracies may have the chance to dispute one-off charges, Utility Cost Recovery leaves no stone unturned, helping businesses recover thousands, tens of thousands, and in many cases six-figure refunds.

Energy Professionals' unique process, in addition to a thorough understanding of the energy market, utility tariffs, and rate classes provides you with an unparalleled opportunity to receive refunds, credits, as well as future savings.

Some Common Symptoms

-  Uncontrolled Energy Costs
-  Increased Bills, Despite Reduced or Same Usage
-  Irregular Meter Readings
-  Bill Discrepancies

Utility Cost Recovery Customers Include

“Our wishes became reality as their professional effort resulted in a six-figure refund plus new lower rates going forward. Great job: Many thanks!” - M.S.

A Proven Process of Utility Bill Recovery That is Both Profitable and Painless For You:

Step 1

Establish service contract, including terms of agreement, audit services and letter of authorization

Step 2

Collect copies of one month's utility bills being audited. We will obtain the remaining months from the utility.

Step 3

In depth bill review, includes full rate analysis, vendor negotiations, historical billing errors and tariffs.

Step 4

We provide an itemized report, detailing errors, refunds and potential future savings as a result of corrections.

Step 5

You receive refunds in the form of funds or credits and see immediate savings on your bill - all within 30 days.

What To Expect

90% recovery success rate, resulting in a refund

On average, our clients experience a 30-40% decrease in total monthly utility expenses.

Utility budget prediction and control

100% peace of mind

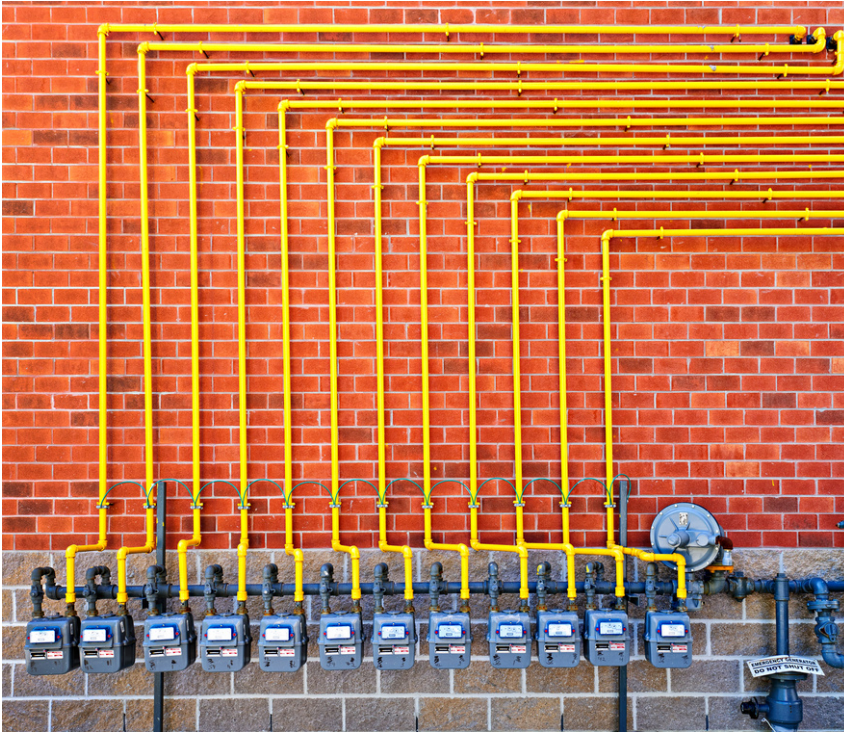

30 day turnaround

"When access to capital is so hard to come by these days, it's great to know that your service is here to help business owners manage the bottom line with their telecommunications and utility expenses." - C.D.B.

Examples of Refund Checks Given Back To Clients After Recovery

Results

"They successfully recovered monies for members of the Greater NY Chamber of Commerce. They offer a win for your business. She even recovered \$60,000 in refunds for our landlord." - M.J.

"From the minute I met this company I knew they knew what they were talking about. Their dedication and care to their clients and strategic partners really shows. I would recommend them to anyone who is trying to create an energy efficient home or business over any other." - A.B.
