

Energy Pricing At a Rate That Fell From The Sky

Energy Independence. More Choice. Less Waste.

Helping Churches & Places of Worship Manage & Reduce Energy Costs

Energy Professionals specializes in Natural Gas and Energy procurement, offering competitive pricing and best in class customer service.

A Story Worth Repeating

One of our energy advisors recently called a church in New York. The lady on the phone was reluctant to check for better energy pricing, as she explained she was sure she was getting a very good rate already. She insisted the person she signed the contract with was a very nice fellow who offered her the best pricing.

Our advisor explained that we are here to help and offered a free rate analysis. If her current rate was in fact good, we would confirm it for her. But should we find something better, we would advise on the better price options.

On receipt of her energy bills, both our advisor and the lady were shocked to see she was paying more than double the standard rates. Working with our network of top suppliers, our energy advisor was able to find a rate that was 67% lower than what she was paying, which ended up saving the church about \$20,000 a year in energy costs and \$60,000 for the duration of her 3-year contract.

The lady was so happy, that she is now a source of referrals for our advisor, helping other churches and places of worship to reduce their energy costs.

Solutions Designed For Your Energy Needs

From giving you better control and saving you money with Natural Gas and Energy procurement to creating energy independence with energy efficiency and renewable energy solutions, Energy Professionals designs solutions for your energy needs and budget. Some of our core solutions include:

- Utility Cost Recovery
- LED Lighting & Energy Efficiency
- Solar & Renewable Energy
- Energy Intelligence
- HVAC New Life Restoration
- Indoor Air Quality
- Water Conservation
- Backup Batteries & Onsite Generation
- Power Factor Correction

The Result

-  \$60,000 in Energy Savings over 3 Years
-  Complete Budget Prediction
-  67% Energy Bill Reduction

About Energy Professionals

Founded in 1999, Energy Professionals is one of North America's leading energy consultants working with commercial customers to reduce and control their energy budgets. We build client-specific, comprehensive energy strategies that factor in our clients' goals and objectives. Utilizing our extensive network of suppliers, energy efficiency experts and renewable energy partners, we bring the most effective, efficient and innovative technologies to the table. We offer both focused solutions to a specific issue and broad plans to address long-term growth, paving the way for energy independence, providing more choice and less waste.
