

## Energy Savings for One of Our Most Important Industries

Energy Independence. More Choice. Less Waste.

### PA Health Care Facility Realizes Significant Energy Savings

*Energy Professionals specializes in reducing energy costs through natural gas & electricity procurement; offering competitive pricing and best-in-class customer service.*

## Why Energy Savings Means More Now Than Ever Before

With the United States at a near-standstill, businesses are scrambling to find ways to get back on their feet, with a primary focus on how to reduce costs. With energy being one of the biggest expenses for the average American business, Energy Professionals is teaming with our Channel Partners to help businesses see immediate savings. By procuring the best natural gas and electricity rates, we're not only helping realize immediate savings and building strong relationships.

## How The Market Impacts Energy Pricing

Because natural gas is the largest source of energy, energy and natural gas pricing are closely related. That's why at Energy Professionals our market analysis tracks the energy market and issues time updates; to keep you informed and to give us information on the best time to enter into long-term energy agreements.

## ***Case in Point: Pennsylvania Healthcare Facility Realizes \$150K in Savings over a Three-Year Period***

Last week, we conducted a free energy audit on energy bills from a Pennsylvania-based healthcare facility. Expecting a reduction in energy prices, the facility managers were shocked when we found that the facility was paying double what it should for electricity. By finding competitive pricing, Energy Professionals was able to bring their rates from over 13 cents per KWH down to 6 cents per KWH - a projected savings of over \$150K over the span of their three-year contract.

### **How Does It Work?**

To start our free energy cost analysis, any business or company can send in a copy of their recent electricity and natural gas bills.

On receipt, Energy Professionals locates the best natural gas and electricity pricing and prepares a presentation along with projected savings.

From our analysis, we present the information to you and consult on the best rates and contract terms available.

**"From the minute I met this company I knew they knew what they were talking about. Their dedication and care to their clients and strategic partners really shows. I would recommend them to anyone who is trying to create an energy efficient home or business over any other." - A.B.**

## Solutions Designed For Your Energy Needs

From giving you better control and saving you money with Natural Gas and Energy procurement to creating energy independence with energy efficiency and renewable energy solutions, Energy Professionals designs solutions for your energy needs and budget. Some of our core solutions include:

- Utility Cost Recovery
- LED Lighting
- Energy Efficiency Solutions
- Energy Intelligence
- Solar Power
- Renewable Energy Procurement
- HVAC New Life Restoration
- Indoor Air Quality
- Power Factor Correction
- Asset-Backed Demand Response
- Onsite Generation
- Water Conservation
- Microgrid Design & Implementation

## What States Have Energy Choice?

- California
- Connecticut
- Washington DC
- Delaware
- Illinois
- Indiana
- Massachusetts
- Maryland
- Maine
- Michigan
- Montana
- New Hampshire
- New Jersey
- New York
- Ohio
- Pennsylvania
- Rhode Island
- Texas
- Virginia
- Wisconsin

## Energy Professionals

Founded in 1999, Energy Professionals is one of North America's leading energy consultants working with commercial customers to reduce and control their energy budgets. We build client-specific, comprehensive energy strategies that factor in our clients' goals and objectives. Utilizing our extensive network of suppliers, energy efficiency experts and renewable energy partners, we bring the most effective, efficient and innovative technologies to the table. We offer both focused solutions to a specific issue and broad plans to address long-term growth, paving the way for energy independence, providing more choice and less waste.
