

New York Hotel Sees \$500,000 in Savings

Energy Independence. More Choice. Less Waste.

Reduce, Control & Manage Your Hotel's Energy Budget

Energy Professionals specializes in Natural Gas and Energy procurement, offering competitive pricing and best in class customer service.

Introduction

Outside of wages and labor, electricity is one of the biggest expenses in the Hotel Industry. Day or night, the lights, air conditioners, kitchens and many other things never stop running. While Hotel Managers are on a constant look out for how to reduce costs, maximize earnings, and increase profit many feel that electricity is not something they can significantly control and manage. So was the case of a hotel we originally contracted in 2010.

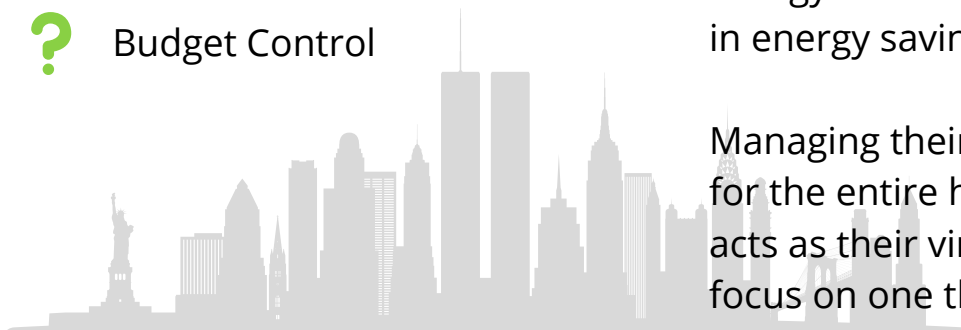

The Problem

-  Rising Energy Costs
-  Large Energy Consumption
-  Budget Control

The Solution

A relationship that started 10 years ago with a phone call has now translated into six different energy contracts realizing more than \$500,000 in energy savings.

Managing their electricity and natural gas rates for the entire hotel. Energy Professionals now acts as their virtual energy manager so they can focus on one thing, hospitality at it's finest.

The Result

-  \$500,000 of Dollars Saved
-  Complete Budget Prediction
-  25% Energy Bill Reduction

About Energy Professionals

Founded in 1999, Energy Professionals is one of North America's leading energy consultants working with commercial customers to reduce and control their energy budgets. We build client-specific, comprehensive energy strategies that factor in our clients' goals and objectives. Utilizing our extensive network of suppliers, energy efficiency experts and renewable energy partners, we bring the most effective, efficient and innovative technologies to the table. We offer both focused solutions to a specific issue and broad plans to address long-term growth, paving the way for energy independence, providing more choice and less waste.
