

Waste Management Disposes of Excess Energy Bills

Energy Independence. More Choice. Less Waste.

Energy Savings Help Waste Management Company Reduce Costs & Be More Sustainable

Energy Professionals works with channel agents and partners to bring energy saving solutions that help clients reduce energy costs and help strengthen relationships.

Introduction

Family owned and operated since 1936, MarBorg Industries has provided exceptional service and customer satisfaction in the greater Santa Monica area. As a leader in the waste management industry, they are also a certified green business and hold a platinum certificate from LEED for their buildings. Introduced to Energy Professionals by one of our channel partners, MarBorg was looking for ways to further reduce their carbon footprint and their energy costs through management of their natural gas used by their entire fleet of vehicles.

Challenges Faced:

-  Increasing energy costs
-  Reduction of carbon footprint
-  Budget control & prediction
-  Increasing profits for a family owned business

The Results

Utilizing our expansive network of natural gas providers, Energy Professionals was able to find a more sustainable natural gas supply on a 36 month term at a cost that was 24% lower than what MarBorg has been paying, helping them reduce fuel energy costs by \$194,463 over the course of the agreement.

-  Energy savings of almost \$200K
-  Increased company profit
-  More sustainable

About Energy Professionals

Founded in 1999, Energy Professionals is one of North America's leading energy consultants working with commercial customers to reduce and control their energy budgets. We build client-specific, comprehensive energy strategies that factor in our clients' goals and objectives. Utilizing our extensive network of suppliers, energy efficiency experts and renewable energy partners, we bring the most effective, efficient and innovative technologies to the table. We offer both focused solutions to a specific issue and broad plans to address long-term growth, paving the way for energy independence, providing more choice and less waste.

Solutions Designed For Your Energy Needs

From giving you better control and saving you money with Natural Gas and Energy procurement to creating energy independence with energy efficiency and renewable energy solutions, Energy Professionals designs solutions for your energy needs and budget. Some of our core solutions include:

- Energy Procurement
- Utility Bill Recovery
- Power Factor Correction
- Asset-Backed Demand Response
- Energy Intelligence
- LED Lighting
- Solar & Renewable Energy Solutions
- HVAC & Indoor Air Quality
- Microgrids
